

Fuel can 15L

The completely new 15 litre fuel can for wheeled machines offers an innovative way of refuelling. Mainly due to the three uniquely placed, ergonomic grips and the special spout design. All this allows you to easily lift and carry the can, and – most importantly – quickly refuel without any splash effects and waste.

Date marking

Date marking placed on the bottom of the can.

Overfill protection

When the tank is full, the flow is cut off automatically and you can lift up the can without spilling.

Level window

to see remaining fuel

Mechanical lock

The spouts has a mechanical lock to prevent unexpected opening and leakage.

FEATURES

- Level window
- Overfill protection prevents spilling
- Date marking placed on the bottom of the can
- to prevent opening and leakage
- Optimal lifting ergonomics
- Easy storage during transport
- provides easy handling and refueling
