

**Powerful**

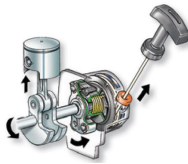

Zenoah blowers have a high blowing capacity with the high air speed and big volume. The strato-charged[®] engine produces the optimal power, while we consider the environment.

**User friendly**

Auto-cruse trigger maintains the optimum speed.

**Easy to start**

"Super e-START" reduces recoil pulling force and makes it smoother in pulling operation.

**Easy Maintenance**

Zenoah original free-flow net prevents clogging from leaves.

**Durability**

With large and two-stage (double) air filters, it takes less particles and dust which makes longer operating life. (EB7000 / EBZ7500 / EBZ8500)

Backpack Leaf Blowers

Backpack blowers

Light weight compact and powerful

EBZ3000

Displacement **29.5**cm³
Power 0,8kW (1,1Hp)
Dry weight 6.1kg

**High Mileage!**

Powerful and larger air volume jet-stream, easy maneuverability.

EBZ5100

Displacement **50.2**cm³
Power 1.6kW (2.2Hp)
Dry weight 9.4kg

**High Mileage!
Quiet!!**
