

All-round saws

Light weight

Every chainsaw in the ZENOAH lineup is designed based upon our accumulated know-how to be light, compact and powerful.

Dust-free air intake

It separates out dust using a centrifugal method and intakes only clean air. The original "dust-free" feature keeps air clean and needs maintenance far less frequently.

Powerful

The strato-charged® engine produces the optimal power to work effectively. It also meets the emission standards for less emission.

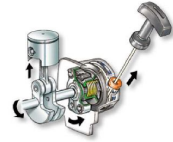

Convenient and safe

It increases the safety and stability when you work on a tree by using this "One Push Start" function.

Easy to start

Thanks to the damper spring installed in our Super e-START, it reduces recoil pulling force and achieves smoother pulling operation. The Super e-START requires only 1/3 of the normal recoil pulling force and 1/2 of the normal recoil pulling speed.

High Quality but Economy Model for Every Use

G3800

Displacement **37.2cm³**

Power 1.7kW (2.3 Hp)

Dry weight 4.2kg

40cm SP(16")

91PX G3800 / SP

Model		G3800
Displacement	cm ³	37.2
Power	kW (Hp)	1.7 (2.3)
Fuel tank	lit	0.31
Oil tank	lit	0.21
Chain brake system		Auto
Sprocket type		Spur
Saw chain type (Oregon code)		91PX
Chain tensioner		Front
Primary pump		-
Compatible bar type		Sprocket
Bar size	in (cm)	16 (40)
Dry weight	kg	4.2
Dust free		●
Strato-charged engine		-
Super e-start		-
