

# Robust saws

### Light weight

Every chainsaw in the ZENOAH lineup is designed based upon our accumulated know-how to be light, compact and powerful.

### Dust-free air intake

It separates out dust using a centrifugal method and intakes only clean air. The original "dust-free" feature keeps air clean and needs maintenance far less frequently.

### Powerful

The strato-charged® engine produces the optimal power to work effectively. It also meets the emission standards for less emission.

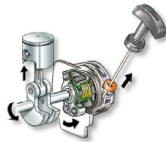

### Convenient and safe

It increases the safety and stability when you work on a tree by using this "One Push Start" function.

### Easy to start

Thanks to the damper spring installed in our Super e-START, it reduces recoil pulling force and achieves smoother pulling operation. The Super e-START requires only 1/3 of the normal recoil pulling force and 1/2 of the normal recoil pulling speed.

## G621

Displacement **62.0**cm<sup>3</sup>

Power 3.0kW (4.0 Hp)

Dry weight 5.5kg

**50cm SP(20")**

73LGX G621 / SP

## Robust saws

Model		G621 / G6200
Displacement	cm <sup>3</sup>	62.0
Power	kW (Hp)	3.0 (4.0) / 2.9 (3.9)
Fuel tank	lit	0.67
Oil tank	lit	0.35
Chain brake system		Auto
Sprocket type		Rim
Saw chain type (Oregon code)		73LG
Chain tensioner		Front
Primary pump		-
Compatible bar type		Sprocket
Bar size	in (cm)	20 (50)
Dry weight	kg	5.5 / 5.6
Dust free		-
