POWER CUTTERS

HUSQVARNA K 3600 MK II

Art.no: 968 42 41 01

Hydraulic power cutter K 3600 MK II provides eccentric drive of the blade meaning the cutting depth is a huge 270 mm. Suitable for a wide window of applications. It's particularly well-suited for working indoors due to no exhaust fumes and low noise levels.

FEATURES

Deep cutting

Thanks to the peripheral drive you can cut far deeper than with a traditional power cutter. The cutting depth of 270 mm is sufficient to cut through a normal wall from one side only.

No fumes and low noise levels

With no fumes and low noise levels hydraulic cutters are ideal for both indoor and outdoor jobs.

Light with high power

Hydraulics is an excellent way to transfer high power without the cutter becoming heavy.

Adjustable front handle

Facilitates manoeuvrable cutting
